Answer the question

I received another letter from
 you a fine day in DATE
 I am so full of love and
 for the past a few days have been
 old friend despite the fact that
 you, I believe, are a beautiful girl and
 I am sure you are a beautiful girl and
 I am sure you are a beautiful girl and

from the day I started to school. I was
lucky and with a little help from my friends

Dear Mr. [illegible]

off to see the doctor
I had the same

... The ...

1. 1. The first part of the paper is a review of the literature on the topic.
 2. 2. The second part of the paper is a description of the methodology used in the study.
 3. 3. The third part of the paper is a presentation of the results of the study.
 4. 4. The fourth part of the paper is a discussion of the results and their implications.
 5. 5. The fifth part of the paper is a conclusion.

meal a day, and take advantage
of the reduced housework to give your arm a rest.
On the plane I read B. L. G. Daughter by
Marquand. I liked it though like so many of the
writers these days their portrayal of new America is
much inferior to the rest of their writing. None the less
I think you would enjoy it should you run out of
reading material.

Good Lord - how far behind in living standards
are all these countries compared to U. S. We
don't have ~~something~~ some of the good things
they have - but even those good things
largely consist of the simple living improved
by factored industrial development. To get
some idea of the felt power, wealth and respect
in which the U. S. is held regarded it is necessary to
travel to Central and S. America.

We have over disappointments in U. S. but
I think we would find a prolonged stay
in most of these Latin American areas very
different. Mexico City might be an exception
if one knew Spanish well enough to carry on a
good conversation. Spanish is not difficult. See
I wish you read it instead of German. I think I'd
advise the kids to study. Take a course in
it if they really can. After all the people of over
20 countries speak it. You could pick it up
in two months I'm convinced.
Maybe when I get to Chile there will be
a letter from you. The love
Henry

HOTEL DE CORTES

AV. HIDALGO NUMERO 85
MEXICO, D. F.

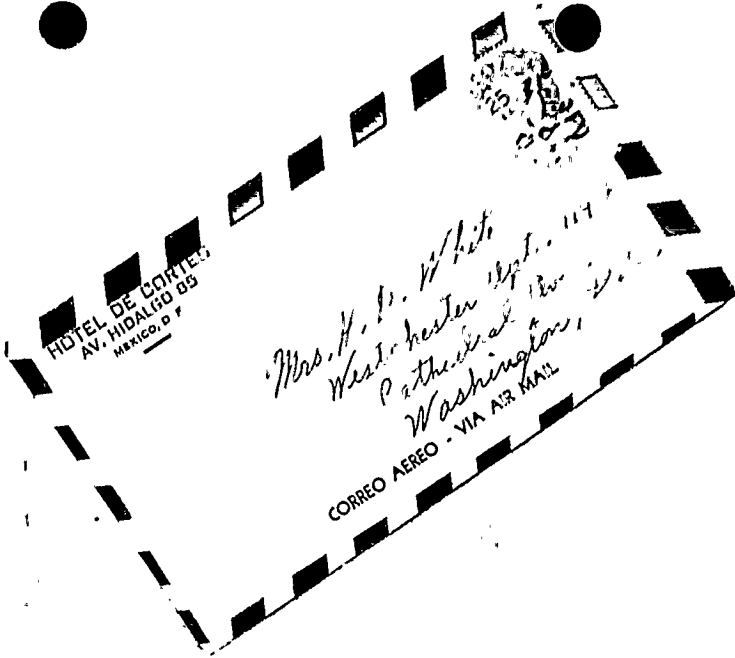

Sat. night.

Annec decret.

Arrived to-day after a rather long night sitting up. We flew most of Mexico City over the clouds so I could not see much, but the city itself was in full view - in a sort of flat saucer surrounded by fairly high hills or small mountains. Its so interesting to come to a foreign city with its slow tempo, thousands of people dressed in such a variety of simple garbs, so ranging from good clothes almost a la N.Y. to the simplest of cotton old dresses, old overalls and so shoes. The shops, too, are so hand-me-down (except of course in the main shopping center) and the contents a mixture of cheap 5 x 10 cent stuff to interesting hand wrought iron work, tools and gadgets. Mrs. Gorney met me at the station and

2-12-47

after washing up at this quaint hotel - right on
a teeming square in the small business section
but very near the Bank of Mexico (The building is a
couple of hundred yrs old but the plumbing is new)
we had a late lunch or early dinner at his
home. Mrs. Gomez asked much after you. She
was very hospitable. In the ^{later} evening they went
to dinner with us as my guests and toured the city.
There has been no chance to discuss monetary
problems of Mexico yet. Incidentally the Gomez
have a very darling baby 15 mos. old. They have been
married some 25 years I think and this is their first.
She claims she has to work fairly hard
despite a nurse for the child, a cook, and a maid.
Mrs. G. says they all go terribly inefficient.

They are going to take me to a full flight tomorrow
though I warned them I shall root for the bulls.
I think we shall leave for Costa Rica on Tues.
but something depends on whether we are able
to cover enough economic discussions by then.

I feel good and am drinking beer and co-cola
galore. The weather is perfect and I'm glad to
be here for a few days. There is no doubt but that
you must soon spend a few weeks in Mexico. I
know you will love it. Love Dad.

Fri. afternoon

3/7/88 \$8078/15 per

Well, Anne dear, there are doubtless
hotter places than this in the world, but
I haven't been in them. I arrived this
noon by plane from Costa Rica, and I'd grab
the first one out were it not for the negotiations
to be conducted. We meet the monetary
authorities for a long session in the late
afternoon and another one, ^{will be held tomorrow} in the morning.
We have a scheduled meeting with the
President of this beautiful Republic tomorrow
and leave for Guatemala as soon thereafter
as possible - Sunday A.M., I believe. From there
to Mexico City where I hope to crystallize
some exploratory discussions. They were too
vague up to now to draw any conclusions. I must
be in Panama on Wed. to meet Santos-Feller.
We both then go to Esquipulas and then Bolivia.

Our visit in Costa Rica was more successful
than I had hoped for, ~~and~~ and fully
justified my position before the Board and ~~and~~
my trip here. ~~We were~~ ^{was} met by an imposing delegation

15 58

domed, costumed, and show the country side.
Costa Rica is beautiful and the climate and weather
perfect this time of the year. From May to Dec.
I believe it rains buckets every day. You and I
must visit this country and spend about a week
there. Beautiful country, scenery, coffee plantations
everywhere, and a damn an unusually clean but
uninteresting capital.

I'll give you an interesting account of our
negotiations some day, but suffice to say we had
complete success in achieving our objective. We
had a long talk with the President of the country
and altogether got what we wanted. It would
have been impossible to have got such results
without a few conferences on the ground.

I've been well though the days are
 hectic. I do not have any time to myself
except on the plane while not talking with
Gomez. I'll doubtless be tired before I'm through
but I'll sure ~~have~~ learn a good deal about
the financial and monetary problems of these countries.
Incidentally, I give them some damn good advice -
and they recognize it as such.

It seems that I've been away for so long already.
I want to hear from you so I'll call you up from
Mexico - probably Tuesday late afternoon or Wed. early morning.
Be sure to go to that doctor about treatments for your arm.
With love, Dad.
